

T_oAI

The Integrated AI & Operations Ecosystem

Total Openness in Striving for Success.

Overcoming Friction Across the Enterprise

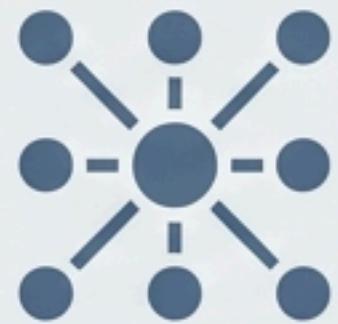

E-commerce

Catalogue chaos, SKU mismatches, pricing gaps, and slow updates.

Enterprise Operations

Urgent need for digital transformation and overcoming isolated data silos.

AI/ML Development

The critical need for vast, precise data annotation and expert-led model fine-tuning to ensure accuracy.

Workforce Management

Hiring bottlenecks, onboarding inefficiencies, and skill mismatches.

The TWO8 Ecosystem Vision: Create. Solve. Evolve.

We deliver intelligent, impact-driven solutions that harness both AI and human expertise, empowering businesses to scale smarter, faster, and with precision.

Introducing TOAI: The Foundation Layer

TOAI is not a simple chatbot; it is an enterprise AI foundation that connects to any data source to act as a central intelligence system for the entire organisation.

TOAI Core: Knowledge Management & Custom Agents

Knowledge Management (KMS)

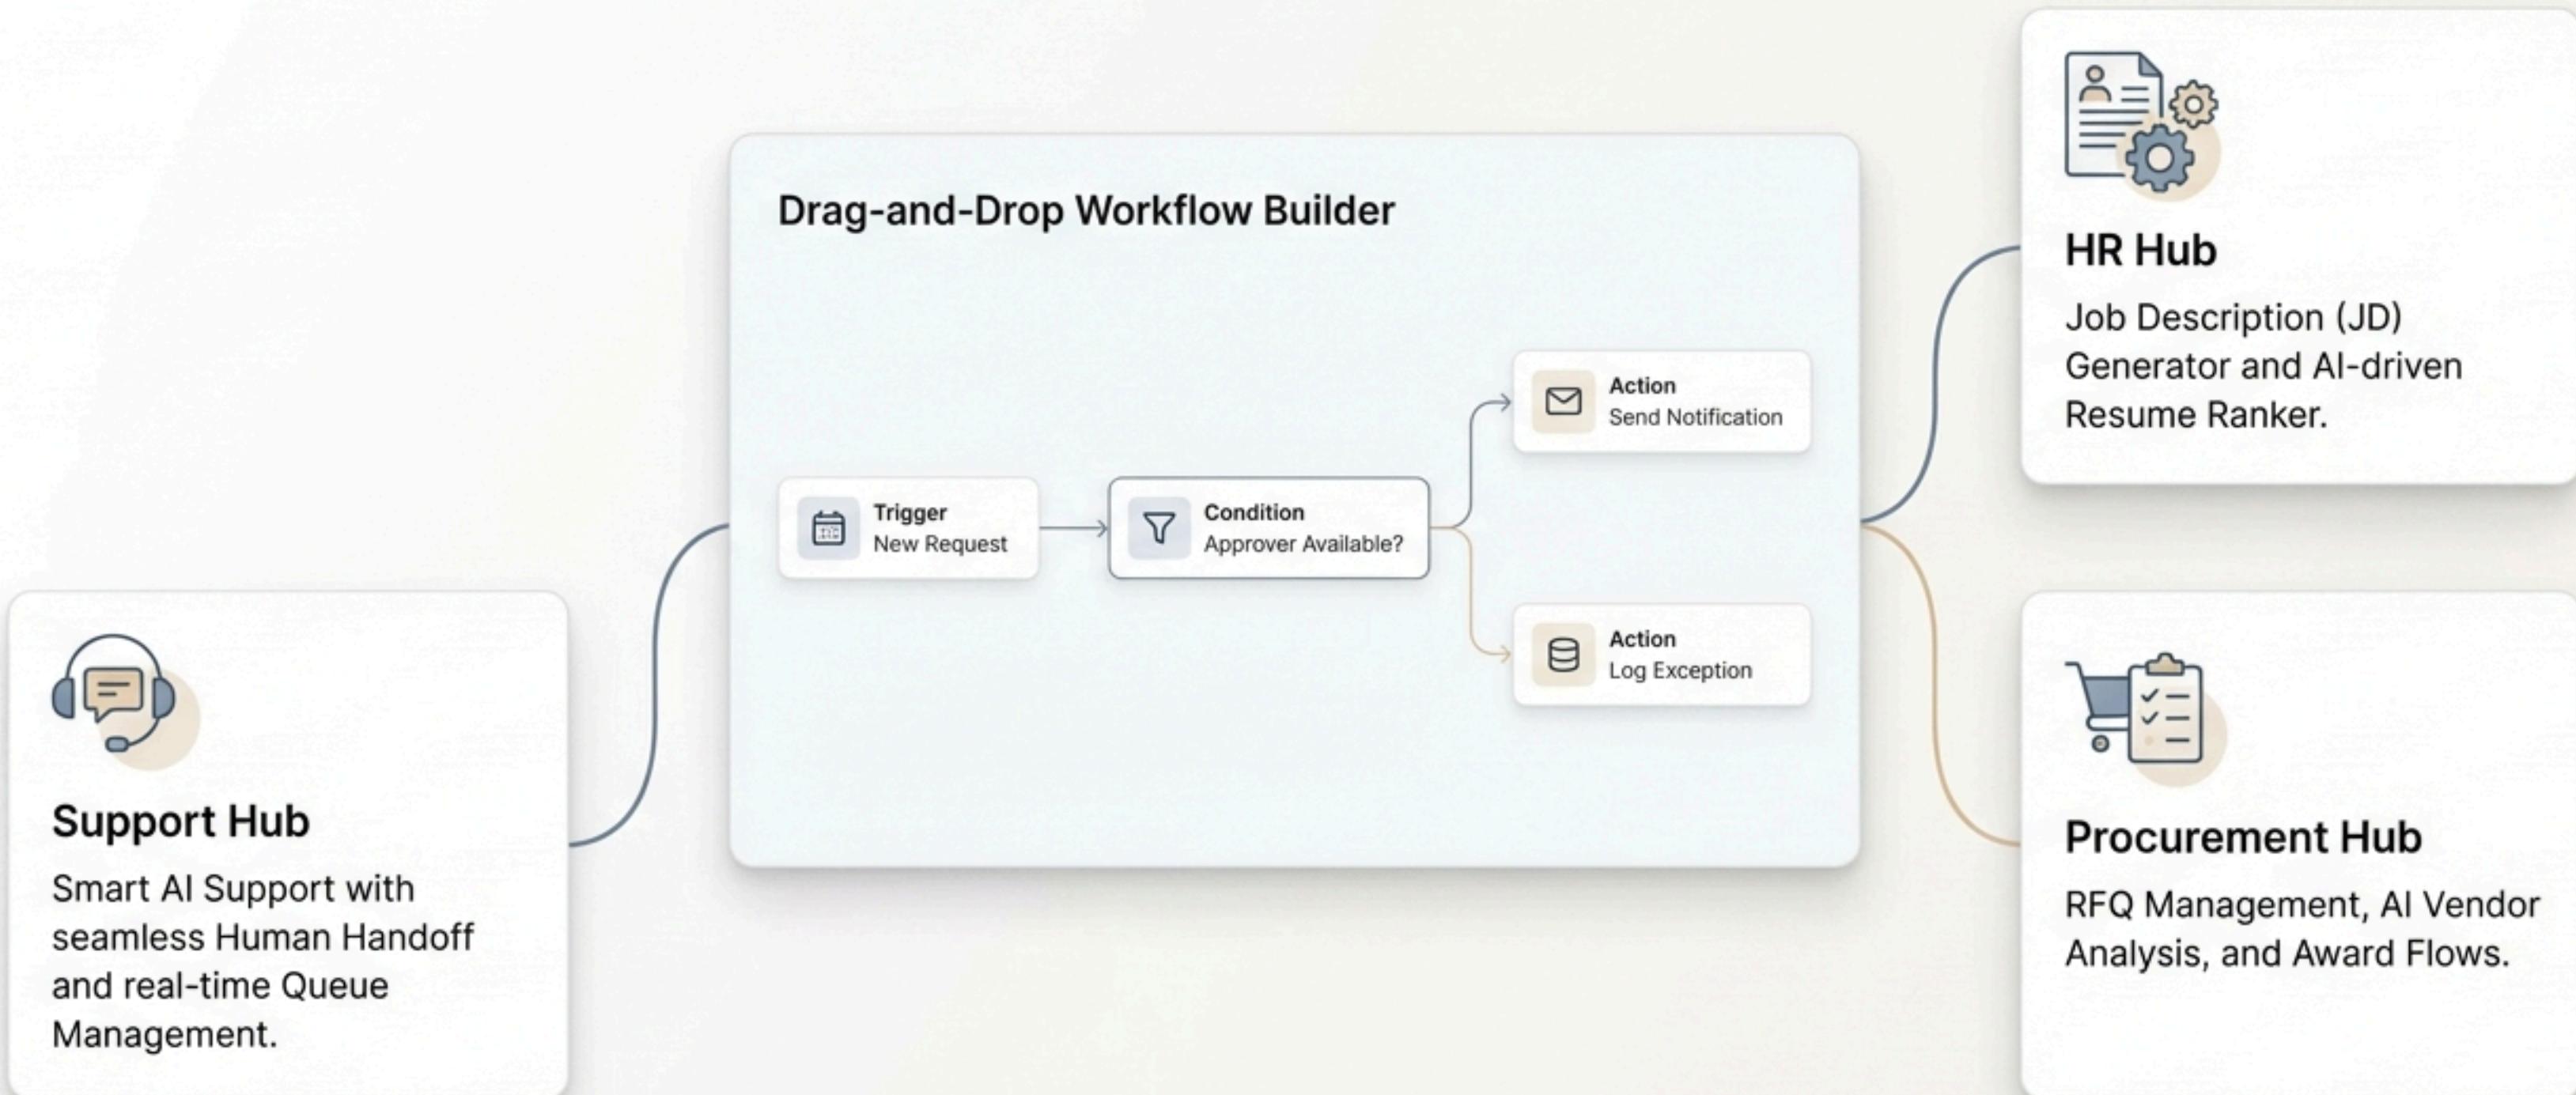

- ✓ **Document Ingestion:** Upload PDFs, Word, Excel, and multi-format files.
- ✓ **Automated Processing:** Intelligent chunking and automated data indexing.
- ✓ **Smart Search:** Hybrid semantic understanding combined with keyword precision.
- ✓ **Private Knowledge Bases:** Secure, isolated data silos for specific departments.

AI Agents & Personas

- ✓ **Custom Personas:** Define unique roles, behavioural guidelines, and exact goals.
- ✓ **Tool Access:** Equip agents to search docs, query databases, and call external APIs.
- ✓ **Secure Integrations:** Public API access via highly secure Agent Tokens.

Visual Workflows & Specialised Enterprise Modules

Enterprise-Grade Security & Integrations

Security & Governance

Complete Data Isolation
(multi-tenant)

Role-Based Access
Control (RBAC)

Full Audit Logging

Secure Connectors

Google Ecosystem
(Drive/Gmail)

WhatsApp API

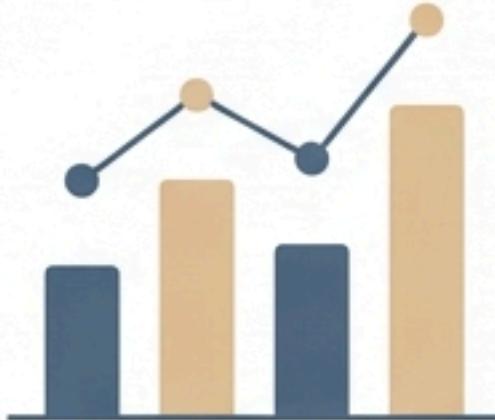

PostgreSQL

REST APIs &
Custom Syncs

Analytics Hub

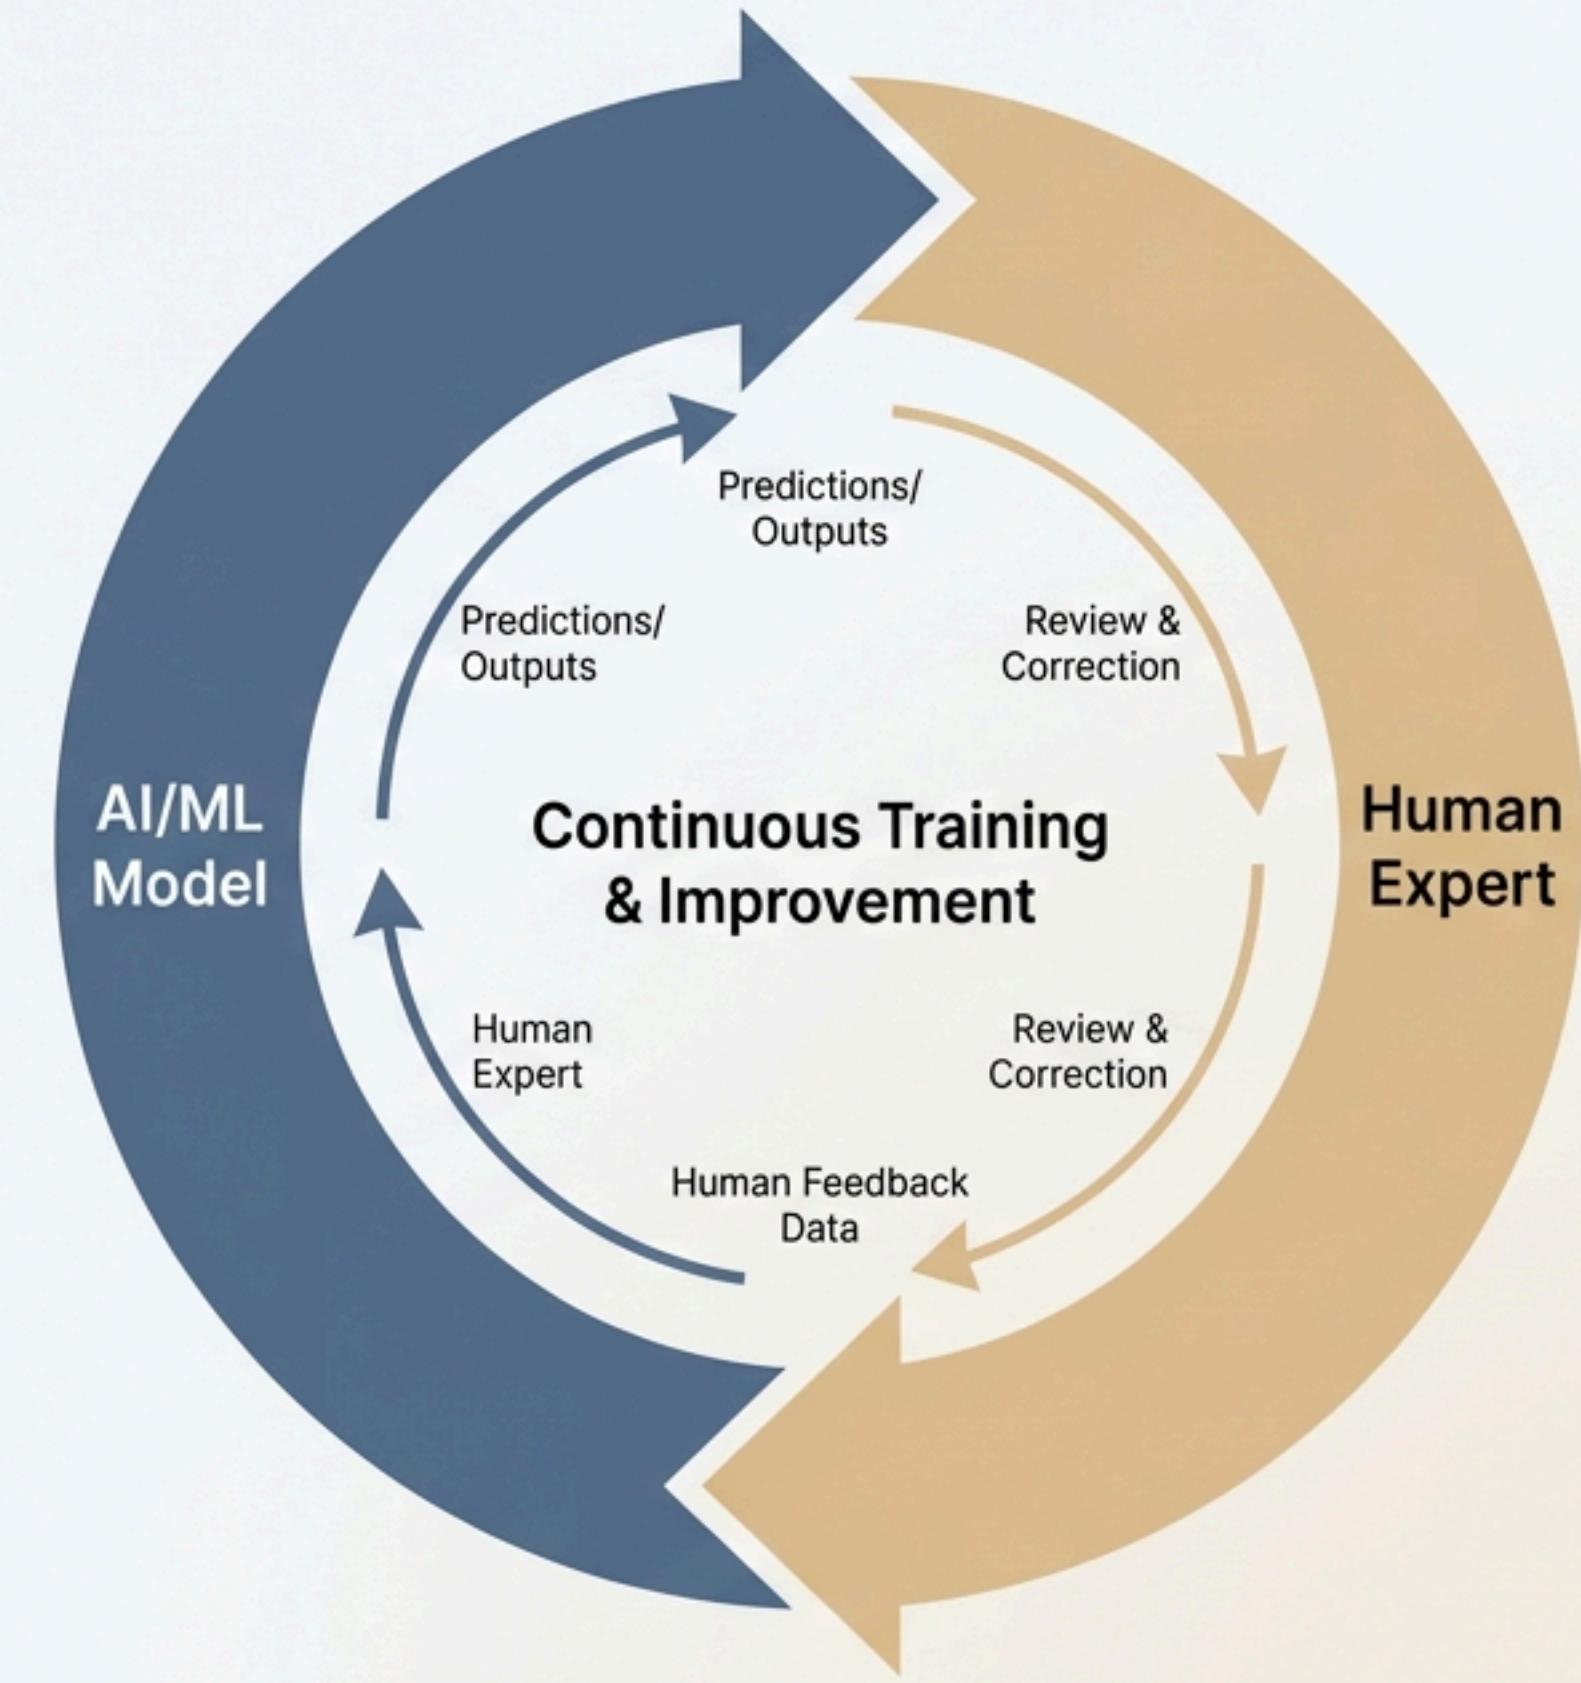

Configurable drag-and-drop dashboards,
Conversational Analytics (chat with your data),
and usage/billing tracking.

TWO8 Services: Expert-Guided AI/ML Model Training

Accelerating intelligent systems from zero to production-ready.
We use human feedback to continuously train AI to be more accurate, polite, and helpful.

- **Model Fine-Tuning:** Tailored refinement of LLMs, CV, and NLP models.
- **RLHF:** Reinforcement Learning with Human Feedback.
- **Synthetic Data Generation:** Proprietary visual datasets for edge-case training.
- **Human-in-the-Loop:** Iterative improvements through expert human judgement.
- **Evaluation & Curation:** Ground truth testing, benchmarking, and custom dataset curation.

Industry-Grade Annotation at Scale

Delivering clean, structured, and context-rich data to ensure quality, consistency, and compliance.

Image & Object

Bounding boxes, polygons, segmentation, classification.

Video

Frame-by-frame tracking, behaviour tagging, action detection.

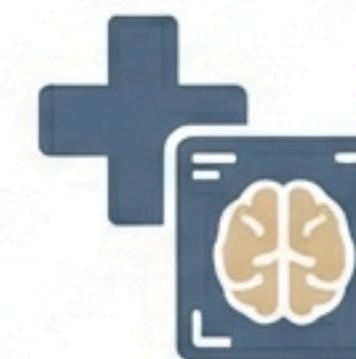

Text/NLP

Entity recognition, sentiment labelling, transcription/transliteration.

Geospatial & LiDAR

3D point cloud labelling, sensor fusion, mapping for AV/drones.

Medical

Radiology image/video labelling, diagnostics tagged by domain experts.

Agile Workforce & Payroll Solutions

End-to-end compliant, scalable, and hassle-free workforce management. Zero payroll headaches.

Manpower Outsourcing

- Rapid role closing (tech, data, ops)
- Scalable workforce (onsite/remote/hybrid)
- AI-powered screening tools

Payroll & Compliance

- 100% statutory compliance
- Automated PF/ESI/TDS
- Audit-ready documentation
- HRMS integration

Consulting & Training

- Upskilling programs
- Business diagnostics
- Operational transformation

E-commerce Operations & Custom IT Development

E-commerce Support

Product mapping, competitive web crawling, price comparison, catalogue enrichment, and vertical definition.

IT & Custom Development

Bespoke platforms, automation tools, custom data crawling, and proprietary in-house AI tool development.

The Collaborative Tool Ecosystem

DataStudio

AI-powered partner platform for programmatic data labelling and precision fine-tuning.

Mindkosh

Smart, scalable data labelling powering AI teams across image, video, and text.

Taskmonk

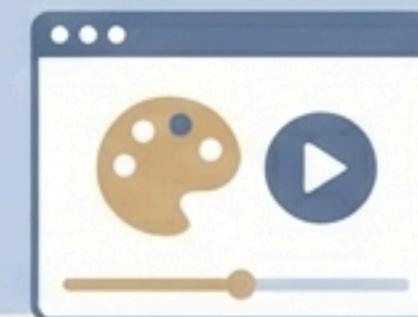

Scalable, accurate data annotation built for enterprise AI performance.

Recruno

AI-powered hiring platform for smart screening, reducing time-to-hire.

Seamless daily workflow integration with tools like ChatGPT, Midjourney, Notion AI, and more.

Tailored Offerings & Global Trust

SKU mapping, catalogue enrichment, and data analytics staffing.

DefinedCrowd[®]

Large-scale data labelling improving AI model accuracy.

International

Autonomous vehicle image/video annotation (98%+ accuracy).

PhonePe

Price crawling and hyperlocal analytics for competitive mapping.

Why Choose TWO8?

- 1.** 50+ years of combined leadership experience.

- 2.** Proven scalability (from 150 to 500+ workforce).

- 3.** Transparent communication & measurable outcomes.

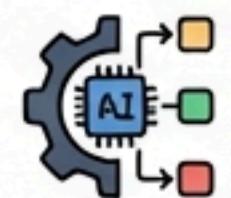

- 4.** Client-first, innovation-led culture.

- 5.** Trusted by global brands across multiple sectors.

- 6.** Flexible, AI-driven recruitment and delivery pipelines.

- 7.** 97%+ project quality, 100% on-time completion.

- 8.** Backed by real success stories and measurable impact.

Driven by purpose. Designed for impact. Let's Connect, Create & Scale.
